

New State-Of-The-Art Facility

SHAPES' new facility is a major step forward, built around speed, precision, and modern manufacturing. With high-capacity cantilever racking, we're storing and moving aluminum more efficiently than ever. The new robotic panel-making system brings consistent, repeatable quality to every fence and rail we produce, and the integrated laser-cutting line opens the door to faster turnaround and far more complex designs. It's a serious upgrade that positions us to scale, innovate, and deliver for customers at a whole different level.

SHAPES Countdown To Our New HQ

- Celebrating Our 30th Year!** - New 80,000 sq.f. headquarters and production/warehouse facility in North Jackson, OH set to officially open in January 1st 2026
- Customer Focused Facility** - Increased capacity. Upgraded automated and robotic equipment to enhance throughput. Expanded customer showroom and meeting space.
- Warehousing Expansion** - 30' ceilings with cantilevered racking and multi-direction forklifts for maximized space utilization. The right inventories for 98% On-time/Complete Shipments.
- Year-End Final Shipments Prior** - December 9th- Jan 5th no shipments to finalize all move-in activities.

NET PROMOTER SCORE SURVEY DEC. 1ST

On December 1st, you'll see a Net Promoter Score survey from: shapesunlimitedinc@qualtrics-survey.com hit your inbox. This quick survey is a key tool we use to measure your experience and identify where SHAPES can sharpen our processes, strengthen support, and improve how we serve you every day. Your feedback directly shapes our growth, especially as we expand into our new state-of-the-art facility and scale our capabilities.

FENCETECH FEB 2-6, 2026

FENCETECH 2026 is right around the corner, and there's real momentum building for Indianapolis. Exhibiting and attending this year means getting in front of the industry's best, showing off what's new, and soaking in the energy of the fencing world's biggest stage. It's shaping up to be a powerful week of connections, innovation, and opportunity.
