

FENCETECH 2026 Momentum

Indianapolis delivered strong engagement. Dealers, fabricators, architects, and builders showed high interest in Ornamental Aluminum Systems and PrimeAlux Aluminum Slat Solutions.

- Growing demand for aluminum privacy and semi-privacy systems.
- Expanded discussions around AC273 testing and compliance.
- Dealers seeking premium aluminum differentiation
- PrimeAlux recognized as a complete outdoor living solution.

SHAPES 30 Years Strong, Just Getting Started

- January officially marked 30 years of SHAPES Unlimited, highlighted by the ribbon cutting at our new 80,000 sq. ft. headquarters in North Jackson, Ohio.
- This facility was built for throughput, precision, and scalable growth.
- Robotic panel assembly systems increasing consistency and production speed.
- Integrated laser cutting capabilities for custom aluminum solutions.
- 30' cantilever racking with multi-direction forklifts.
- Expanded showroom and customer meeting space.
- Inventory depth supporting 98% on-time/complete shipments.

PrimeAlux Aluminum Slat System Looking Ahead

Looking Ahead Q2 2026

- PrimeAlux Dealer Approach System Rollout
- Advisory Council collaboration on Railing R&D 3.10
- Expanded AIA / CEU initiatives
- Automation optimization within the new facility
- Targeted builder and architect outreach
- **Aluminum is no longer the alternative it's the upgrade**

NET PROMOTER SCORE SURVEY 2025 RESULTS

The attached summarizes the results of our 2025 Net Promoter Score (NPS) customer survey measuring customer loyalty, satisfaction, and advocacy. With consideration to year one in instituting this metric our 30.96 score is a solid reflection of our evolving culture and alignment to our corporate Mission and Values.

PRIMEALUX EXPANSION GROWTH

PrimeAlux continues to expand across residential and light commercial markets.

All-Black and White Walnut / White Post configurations are now in stock and shipping.

- PrimeAlux installations accelerating
- Builder interest in integrated fencing, screens, and pergola solutions
- Increased delegated engineering documentation requests
- Ongoing R&D; alignment with ICC-ES AC273 testing initiatives
